Business Development

Experience

Drupal-team Lead, Nebus Loyalty Hulst, The Netherlands — November 2010 - Present

Leading a team of five into designing, building and maintaining our clients websites, with a special focus on e-commerce and internet-marketing.

The main focus is to build great new e-commerce platforms and maximising site revenue for existing sites by exclusively using Drupal.

Drupal Developer, Nebus Loyalty Hulst, The Netherlands — April 2009 - November 2010

Content management and Drupal development for airmilesshop.nl, shellzegelshop.nl, remiageschenkgids.nl, kortingreus.nl, nebusloyalty.com ...

Preparing Nebus Loyalty together with all its websites to switch to the new platform based on Drupal

Senior Webmaster, DotProjects Gent, Belgium — March 2009 - June 2009

Maintaining and building multiple sites including gs1.com, plopsa.be ...

Training and supporting the Studio 100 webmasters into maintaining their Drupal driven website plopsa.be.

Partly Outsourced to Nebus Loyalty

Mainframe operator, Toyota Motors Europe/USG innotiv Brussels, Belgium — September 2008 - February 2009

Monitoring and managing IBM z9 Mainframe, AS400 systems, Intel and Linux servers.

Marketing Manager, DINK Kortrijk, Belgium — January 2008 - June 2008

Together with 2 colleagues I started the learning venture DINK which was an IT-company with real customers in cooperation with our school (PIH Kortrijk) specialising in Unified Communications.

Part-time Self employed, Digital54 Belgium — January 2002 - Present

Started by building simple HTML websites for friends and family and moved on to building websites and IT services for local small business.

Since 2010 working under the name of Digital54 as a Drupal Architect by providing ad-hoc project planning, estimates and technical decision advisory services.
